## LETTERS

### Seventy years and going on...

May evening, setting sunlight on the pasture,  
The grass golden green on the facing slopes –  
Dark green where the sunlight it doesn't capture.  
Golden with their budding leaves, the woodland  
oaks;  
White the apple blossom; pink on the cherry tree;  
Primrose, cowslip, bluebell, the wild rose yet to see.  
In the valley the river, like time, is flowing on;  
It ripples in pools, splashes over stones and then that  
water's gone.

Stormy, dark clouds, strong wind, heavy rain –  
The sun comes out, it's warm again.

In the pasture ewes call, lambs run to suckle their fill.  
Night falls, silence, clouds moving over the moon and  
stars, all else is still.

This is how it has been for Elizabeth II and me.

For future generations may it always be –  
God save the Queen.

Doug Anderson, Barningham

### Keep a closer eye on how much energy you're using

Confused by Smart Meters? your local Age UK can help you understand how they work and the options available for you. Call us on 0300 30 20 100 for more information.

It's always been important to keep an eye on energy use but, with energy prices rising, it's more important now than ever.

Smart meters and the in-home display can help. They mean you can see how much energy you're using and how much you're spending. So you can decide when to turn on, turn up, or turn off.

Ask your energy supplier for a smart meter or search 'get a smart meter' today.

Some homes can't get a smart meter yet. Your energy supplier can tell you if you can have one and how soon it can be installed.
